Architecture degree – School of architecture at Universidad Autónoma De Nuevo León (UANL).

IBM Data Analyst Professional Certificate (2025-2026)

Online Certificate

'Actuarios x Mexico' Data Science Career path (2026)

Online Certificate

ABOUT ME

Data Analyst transitioning from a 6-year career in architectural design, now pursuing a new career in the data field. Previous experience in construction management and design, where I built a strong foundation in visual communication and structured problem-solving. Currently completing IBM's Data Analyst Professional Certificate, with hands-on portfolio projects in SQL, Python, Power BI, and Excel. Based in Monterrey, Mx, seeking remote opportunities.

DATA PROJECTS

Blinkit Sales Analysis (SQL + Python)

Designed a 5-table relational database in MySQL and built a Python/Jupyter analysis pipeline uncovering delivery performance and customer segmentation insights. [\[GitHub link\]](#)

Cinépolis Social Media Dashboard (Power BI)

Built a multi-platform performance dashboard with DAX measures, identifying TikTok as the highest-reach platform and Instagram as the most efficient. [\[GitHub link\]](#)

Broadway Revenue Dashboard (Excel) Analyzed inflation-adjusted Broadway revenue, revealing that long-running shows outperform newer hits once compared on equal footing. [\[GitHub link\]](#)

ACHIEVEMENTS

June 2018 / First place in thesis competition at School of Architecture UANL, with thesis Project: "University dorms".

July 2026 / Completed IBM's Data Analyst Professional Certificate while actively building a 3-project public portfolio (Excel, Power BI, and SQL/Python), independently managed alongside a full career transition.
